

Sharon Egan

Being a perfect host comes naturally to Sharon Egan. Her ability to nurture is the foundation of the success of her restaurants. Developing a business acumen began with the basics: quality and food sensibility. A graduate of the Ballymaloe Culinary School in County Cork Ireland, she applies her “farm-to-table” concept to her restaurants as well as her ingrained adeptness in making her patrons feel at home. A co-owner of Egan & Sons in Montclair and West Orange, and Halcyon Seafood Brasserie in Montclair, Sharon does not run the businesses alone, but is surely the face of her establishments and the person who patrons expect to see. A working mother of 3 high school and college bound sons, she relies heavily on strong management and employs 110 people in her community, many of them women in key roles. Egan’s often holds large scale fundraising events to benefit local organizations and charities. In her own words, “Good Karma always comes back to you”

Sharon and partners continue a marketing strategy to create a new and unique dining experience every few years. Since opening 3 venues since April of 2005, expect to hear about something new from her soon.

Kristi Telschow

Kristi Telschow founded Jersey Staffing with the intention of changing the way the staffing industry works for its customers. In less than two years, Kristi has driven business growth to an amazing 400% per annum, using all of the techniques and ideas that make Jersey Staffing an industry leader. The Jersey Staffing team approaches the recruiting process differently than most staffing companies. They pride themselves on a personal approach that gives clients the best, customized solution. Kristi’s philosophy is: “We put ourselves in our customer’s shoes. We conduct our searches and interviews as if we were hiring our own staff.”

Kristi founded her WBENC Certified Women’s Business Enterprise in northwest NJ, offering businesses the perfect solution(s) to meet their staffing needs. Jersey Staffing specializes in helping firms fill temporary, temporary-to-permanent, contract and direct placement staff in the Management, Information Technology, Administrative & Clerical, Human Resources, Sales and Light Industrial fields.

Amy Gideon

My husband and I started our company in 1990 and we now have 8 employees, 500 clients and a hosting data center that has 100 servers. We built this sophisticated data center that is backed up by a generator and is connected to the Internet through 3 different providers for purposes of redundancy and speed.

TAG Online has distinguished itself by our wealth of experience in not only the design aspects of creating websites, but with our expertise in software development and hosting. We have been featured in *Digital Imaging* magazine, *Sybase Magazine*, *Entrepreneur.com* and *Montclair Times*.

Our vision for the future is to establish ourselves as an industry leader through integrating our strong knowledge & experience in web design, development and hosting with our ability to communicate and implement the powerful solutions and possibilities for human connections that exist in the world of the web.
